

Dear Scouter,

We continue to monitor the fluid situation across the country relating to the COVID-19 pandemic. Attached you will find the latest guidance from the four national high adventure bases relating to summer 2020 operations. In summary, things you should know:

1. We are still planning to operate as planned in summer 2020 if we can do so safely.
2. The existing refund policy is still in force. The National Executive Committee will review these policies and have new policy guidance in the May 1 update as needed.
3. We are flexible on payment deadlines in an effort to provide you the greatest latitude to move forward. For existing reservation, please note that we are extending the April 30 payment deadline to May 31. Additionally, we will work with your circumstances if this does not fit your unique need.
4. Further guidance on the summer 2020 will be sent on May 1.

Thank you for your patience through this challenging circumstance. Please review the attached document for more details about summer 2020 programs and the various issues that the National Outdoor Adventures team are addressing as part of the ongoing effort to be prepared. An additional update will be provided May 1.

In the Service of Scouting,

Matt Monroe | Director of Program
